Indian **Heart** Rhythm Society

Dear Colleague,

It is our great privilege and honour to invite you to the 18th Annual Conference of the Indian Heart Rhythm Society – IHRSCON 2026 DELHI, to be held from 18th to 20th December 2026 at "Hotel – Le Meridien" , New Delhi.

IHRSCON has evolved into one of the most prestigious academic forums in the field of Cardiac Electrophysiology and Heart Rhythm Disorders, bringing together leading electrophysiologists, interventional cardiologists, heart failure specialists, cardiac surgeons, researchers, industry innovators, and allied healthcare professionals from India and across the globe.

The scientific landscape of cardiac rhythm management continues to evolve rapidly with significant advances in catheter ablation, device therapies, conduction system pacing, leadless technologies, artificial intelligence, imaging integration, and precision electrophysiology. IHRSCON 2026 aims to provide an exceptional platform for dissemination of contemporary scientific knowledge, evidence-based clinical practice, translational research, and technological innovation in the management of cardiac arrhythmias.

The Scientific Committee is meticulously designing a comprehensive and high-impact academic programme encompassing case in a box, state-of-the-art lectures, debates, interactive sessions, hands-on learning, and expert panel deliberations covering the entire spectrum of Arrhythmia Management. Special emphasis shall be placed on practical learning, complex decision-making, emerging technologies, and contemporary guideline-directed therapies relevant to daily clinical practice.

A key focus of this conference will be to inspire and mentor the next generation of cardiologists and cardiac electrophysiologists by encouraging active academic participation, research presentation, and scientific exchange among young and aspiring clinicians. The meeting shall also foster collaborative interaction between national and international experts, thereby strengthening academic partnerships and advancing the future of arrhythmia care.

Set against the vibrant cultural backdrop of New Delhi, IHRSCON 2026 promises not only an enriching scientific experience but also warm hospitality, meaningful networking opportunities, and memorable camaraderie among colleagues dedicated to advancing cardiovascular care.

On behalf of the Organising Committee and the Indian Heart Rhythm Society, we cordially invite you to join us for this landmark academic gathering and contribute to the shared vision of advancing excellence in cardiac electrophysiology and achieving the theme of this conference “Arrhythmias: Tradition Meets Innovation” for our patients and society.

We eagerly look forward to welcoming you to New Delhi for IHRSCON 2026 DELHI.
